

NEW CAN PLANT . . . Reynolds Metals Co. has announced plans to build an aluminum can manufacturing plant here to supply the West Coast facilities of the Theo. Hamm Brewing Co., and other can customers. Officials of both Reynolds and Hamm are pictured here inspecting the new plant's plans at the site recently. In the picture, from left are George T. Burns, of Los Angeles, Reynolds Pacific Regional

Packaging sales manager; L. R. Payton, of Richmond, Va., general manager, Can Division, Reynolds Aluminum; J. R. Brant, of Los Angeles, vice president and general manager of Hamm's West Coast; Frank Leibert, of Chicago, Reynolds Central Regional packaging sales, and David M. Kushner, of Richmond, who will manage the new plant when it is completed early next year.

Reynolds Metal to Build New Aluminum Can Facilities Here

Reynolds Metals Company will build its fourth aluminum can manufacturing plant here to supply the west coast facilities of the Theo. Hamm Brewing Co. and other can customers, the company announced today. Cost of the plant was not disclosed.

The can plant will be located in an existing 100,000-square-foot building on a 12½-acre plot owned by Reynolds. The company will add 83,000 square feet to the existing building. In addition to housing drawn and ironed aluminum can-making equipment, the one-story building will provide warehouse and office facilities.

Can production is scheduled for early 1966. The facility will have an annual capacity of 200,000,000 cans. Employment probably will reach 100 by early next year. The plant also will produce aluminum ends for cans. End capacity also will be 200,000,000 annually.

EMPLOYEES at the plant are represented by Local No. 388 of the Printing Specialties and Paper Products.

Both Reynolds and Hamm's officials were on hand recently to launch the Torrance program.

In addition to supplying Hamm's drawn and ironed aluminum cans, the plant will produce aluminum cans for other industries' requirements, the company said.

Reynolds built the nation's first aluminum beer can manufacturing plant in White Bear, Minn., in 1964, to supply the St. Paul brewery of Hamm's. Scheduled to begin operations in the spring is

another Reynolds can plant in Tampa, Fla. The Tampa facility will supply drawn and ironed cans to Anheuser-Busch, Royal Crown Cola Co.,

and other can customers. In late 1961, the Richmond-based aluminum firm opened its first aluminum can plant in Orlando, Fla.

The can plant will be the third facility on the 43-acre Torrance site. The others are an extrusion plant and a warehousing operation.

Wrecking Yards Beauty Program Sought - Hahn

"There is nothing pleasing to the eye about a wrecked car," Supervisor Kenneth Hahn said in asking for a study on ways that wrecking yards can be better landscaped.

The supervisor wants the wrecking yards fenced and landscaped to promote both beauty and safety.

"There are too many wrecking yards in Los Angeles County that are ugly," he declared.

Hahn said there are too many wrecking yards "where

portions of the wrecked automobiles and trucks front on public roads or public right-of-way and this detracts from an orderly and beautiful road."

The supervisor stressed that all businesses should help make Los Angeles County beautiful, and asked the Regional Planning Commission, the Los Angeles Beautiful Commission, and representatives of wrecking yards to report recommendations to the Board of Supervisors within 90 days.

Block-M, Lettergirls Plan for Annual Dance

Block-M and Lettergirl club members at Bishop Montgomery High School will combine forces in May to sponsor their annual dance. The dance is traditionally the last dance of the year.

Lettergirls are associate members of the Girls' Athletic Association who have earned letter through participation in sports, drill team, or service projects. They officiate at intramural sports and host the annual play day for the girls' divisions of other Catholic high schools.

Sister Cecilia Mary is moderator of the club. Natalie Rocha is serving as spring semester president. Other officers are Pattie Schnell, vice president, and Valerie Pescar, secretary-treasurer.

Block-M, which also is a service club, is composed of boys who earn athletic letters. Recent inductions have

increased the membership to 65.

Marvin Wood is moderator of the group, and Bill Brown is the current president. Other officers include Bob Byrnes, vice president; Tim O'Keefe, treasurer; Terry McGuire, secretary; Irl Davis, sergeant-at-arms, and Dave Hunt, publicity director.

Speech on Handicaps Scheduled

Dr. Eugene M. Blumberg, a clinical psychologist, will address members of the Long Beach chapter of the California Association for the Neurologically Handicapped Children (CANHC) tomorrow evening.

The meeting will begin at 7:45 in the Long Beach Memorial Hospital cafeteria, 2801 Atlantic Ave. Dr. Blumberg's topic will be "Minimal Dysfunction versus Clinical Brain Damage."

The Long Beach chapter includes the Southwestern section of Los Angeles County.

Neurologically handicapped youngsters may appear to be normal, but suffer from immaturity, emotional instability, or physical effects which may affect learning, memory, or speech. Such handicaps are often hidden.

Fuchsia Club Holds Meet

Guest speaker at the Palos Verdes Fuchsia Club meeting Monday was Ken Terry, horticulturist. Fuchsia culture and general gardening tips was the topic of the evening. Mr. and Mrs. Wayne Pratt were hosts of the meeting.

Club meetings have been slated for the first Monday night of each month at Palos Verdes High School in the faculty dining room at 8 p.m.
